The short session of Congress, the abolishment of which is now sought is so useful and valuable an institu tion that it would be worth while in venting it if we did not already have it, for it permits of a cooling-off of heated brains following a hectic political cumpaign in which every body, including the voters and the candidates, goes absolutely loco. It is to be hoped that the House of Rep resentatives will demonstrate its good sense and sound wisdom by throwing this piece of quackery into the nearest waste-paper basket.

The Virginia Legislature passes 100 new laws in a single day, and all the balance of the States are grinding out statutes at the same appalling rate, to say nothing of the avalanche from Congress. Blanton and Others Oppose Constitutional Change; Big Crowd Attends.

(Associated Press.)

The House took counsel with itself resterday on the advisability of accepting the Norris-White amen to the Constitution proposing to abolish "lame duck" or short sessions of Congress and to change the presiden tial inaugural date from March 4 to

The amendment also would provide for succession to the Presidency by the Vice President-elect in event of the death of the former and empower Conress to provide by law for the succeson in case of death of both.

The debate drew to the House floo ne of the largest attendances of the session and indorsements of the amendment by both Representatives Garrett, of Tennessee, the Democratic leader, and Burton, of Ohio, one of the powers in Republican congressiona ranks, were heard by considerably more than a quorum of the member-

ommissioners, at a meeting yesterday in Rockville, asked John N Mackall. chairman of the Maryland State Roads Commission, to prepare plans for the construction of an underpass at the Baltimore & Ohio Raliroad crossing on the first Maryland extension of Sixteenth street, which will connect that street at the District line with Georgia avenue and the Colesville-Baltimore road at the north of the business district of Silver Spring. The State roads commission is now constructing the eastern section of the road as far as the proposed underpass.

The county commissioners will pay the cost of the underpass, estimated at \$60,000, from the emergency construction fund of \$250,000, if they are unable to finance the project from current road bond issues. This sum will be reimbursed to the county by the State when the, project is reached on its gradecrossing elimination program, at which time it will be included in the State allocate 1 of funds for such work. By adopting this financing device the construction of the underpass much earlier than otherwise, besides hastening the extension of Sixteenth street to the Baltimore highway.

The proposed east and west highway between Bethesda and Silver Spring, which is expected to be completed during the coming summer, will link up, through the Baltimore & Ohio underpass, the cruite western section of Montgomery County with the eastern section, at the same time making a continuous highway from the western imits of the county to Baltimore.

The State roads commission is expected to first eliminate the Kensington grade crossing, where six fatalities have occurred within the past year, county officials said. The grade crossing on the Rockville-Fredrick highway at Gaithersburg is expected to be eliminated as quickly as the Kensington grade crossing, where six fatalities have occurred within the past year, county officials said. The grade crossing on the Rockville-Fredrick highway at Gaithersburg is expected to be eliminated as quickly as the Kensington grade crossing is completed.

The

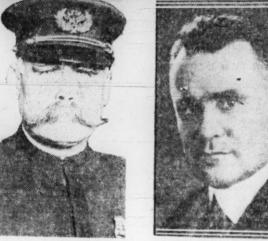

spring and other communities that are included in the Maryland-Metropolitan District of Montgomery County. Sitting as the zoning council for the sections involved, the board of county commissioners, in acepting these maps, plans and regulations of the Maryland National Park and Planning Commission, have solved the zoning problem of the entire district, since their action makes the plan a law.

Building permits in Montgomery County must now be obtained from the board of county commissioners, after such permits have been approved by the Maryland National Capital Park and Planning Commission and the county building inspector. Building regulations are now being considered by the commissioners. It is believed they will promulgate them at their next meeting. March 13

Private, Is Briand's View.

M. Brland, receiving French correspondents tonight, said that the Kellogg proposals constituted an affair between France and the United States. He emphasized that Geneva was not the proper place in which to discuss them. It was taken for granted, however, that the subject was not excluded from private conversation.

The council received a telegraphic suggestion from Maxim Litvinoff, chief of Soviet representatives abroad, that Turkey be invited to send a representative to the next session of the disarmament commission.

Neely and Others Attack Commission's Ruling Against Southern Fields.

(Associated Press.)

The long-standing row over the lake cargo coal case reached a definite point yesterday when opponents of the reappointment of John J. Esch, of Wisconsin, as a member of the Interstate Commerce Commission obtained an unfavorable committee report on his con-

The vote was 10 to 7, party lines being broken on both sides. Accompanying the unfavorable report to the Senate, to be made in the next few days, will be a minority report by Senator Fess (Republican), Ohio, urging confirmation.

While Esch first came under fire during the long hearings before the interstate commerce committee because of his change of vote in the two lake coal cases, the attack finally broadened to include the whole question of the commission's policy under the Hoch-Emith resolution, which provides for readjustment of freight rates.

the Hoch-Smith resolution, which provides for readjustment of freight rates. Opponents of Esch contended that by reversing itself in the lake cargo case and granting to the Pennsylvania and Ohlo soft coal fields an increased preferential rate over those in the West Virginia-Kentucky territory the commission had sought deliberately to shift industrial depression from the Northern to Southern fields.

Opponents of Esch's confirmation may seek to bring the Senate fight out in the open instead of having it conducted behind closed doors, as is the rule in considering executive nominations. They concede that the vote on the nomination itself will be close and doubt that they can obtain the two-thirds majority necessary to open the Senate doors on the debate and roll call.

As a sidelight on the Esch fight, Sen As a successful of the Each right, senator Neely yesterday introduced a bill to fix the term of Interstate Commerce Commissioners at eight years and make them ineligible to reappointment. In addition reappointments to fill a vacancy would be named for a full eight-year term,

The proposal reflects charges openly made at the time Esch changed his tote in the fake coal cases that his term was about to expire and that his action was influenced because he was seeking reappointment. This the commissioner heatedly denied time and again during the three days he was under fire before the committee.

The roll call in the committee on the Esch nomination showed six Republicans and one Democrat supporting a favorable report on the confirmation and four Republicans and six Democrats in opposition. #### STUPID AND DANGEROUS.

The House of Representatives is discussing a proposed amendment of the Constitution, changing the time for beginning the terms of the President, Vice President and members of Congress, and for the assembling of Congress. The. House resolution is a substitute for the half-baked "Norris resolution," which the Senate recently passed in one of those periods of amnesia that are becoming such marked features of its progressive degeneration. But the House resolution achieves the astonishing feat of being as futile and mischievous as the Senate resolution.

It is proposed that the terms of the President and Vice President shall begin on January 24, and that the terms of members of Congress shall begin on January 4; that Congress shall assemble annually on January 4, and that it shall adjourn at noon on May 4 in every evennumbered year.

It is also proposed that if the House has not elected a President, whenever the right of choice devolves upon it, before the time fixed for beginning his term, then the Vice President chosen for the same term shall act as President until the House has chosen a President; and that if a Vice President has not been chosen. Congress may declare what officer shall act as President until the House has elected one, or until the Senate has chosen a Vice President.

As existing law provides that Congress shall count the electoral vote on the second Wednesday in February, this law would have to be amended if the pending constitutional amendment should be adopted. Congress would convene on January 4. Members of the House are not sworn in until the House has elected a Speaker. As the Congress convening just before the counting of the electoral vote would be a new Congress, there could be no joint session to canvass the vote until the House had been organized. A deadlock over the election of Speaker might continue until after January 24. entitled to be President of the United States?

Under the present system the House is always organized for the short session, and Congress can always canvass the electoral vote in time to declare the result before March 4. But under the proposed amendment there would be no assurance that Congress would be in a position to declare the result of the election before the time came for inauguration. The House, if it had not yet elected a Speaker, could not elect any person to act as President, and the term of the last President would have expired.

Thus, without going further into the muddle that would be created by the pending resolution, it appears that it opens the way to a vacancy in the Presidency. No more stupid and dangerous proposal has ever come before Congress.

If the House, by inadvertence or ignorance, should approve this resolution, it would probably be accepted by the Senate. Since the Senate's approval of the Norris resolution there is no assurance that this twin monstrosity would not pass muster with the "constitutional lawyers" of that body. But there is no danger that either resolution will ever be approved by the States, for they have sense enough to kill off legislation that might leave the country without a President.

#### CARE OF VETERANS.

The task of bringing order into the conduct of veterans' affairs has been a long and hard one. Confusion naturally arose during and immediately after the war, when there was neither experience to guide officials of the Government nor time in which to pick the way carefully. Much has been done since to straighten out tangles and cut useless red tape, but it is generally acknowledged that what is now needed is a concentration of the

to consider is that of Rice W. Means, former senator, and official of the Spanish War Veterans. Mr. Means appeared last week before the House committee considering veterans' legislation and urged the creation of a department of veterans' relief to care for the survivors of all wars. The proposal is for the creation of four branches, namely: Pensions, insurance and administration, hospitals and domiciliary and custodial care.

It was perhaps only natural that Mr. Means should consider the problem from the standpoint of Spanish War Veterans. He complained that men who fought in Cuba and the Philippines found it difficult to obtain their rights from the Veterans' Bureau. What the Colorado man said may be true, but it ts self-evident that there should be no line drawn in the treatment and care of men who have served their country, regardless of the war in which they took part. As the situation is now being handled there must of necessity be duplication of effort. One organization, charged with the care of all veterans, ought to be a decided improvement.

#### THE PRESIDENTIAL PRIMARY.

Presidential candidates whose ambitions and claims cover a wider area than a single State must sooner or later confront the problem of the presidential primary and decide what their attitude toward this particular sort of political machinery will be. The decision is not an easy one, as immediate events testify. Many delicate equations are involved, and the choice between participation and abstention is often so fine that the possibilities of making the wrong decision are manifold. The fault lies in the system and not in the men, but as long as the system is maintained the consequences can not

be avoided. There is no difficulty in visualizing the result of the present method. It leads not to determinations but to compromises. It breeds favorte sons whose light will not be seen after the first few ballots. It creates uninstructed delegations in search of the best trade that their indecision may bring. It is in no sense an expression of popular sentiment, for the choice it left not to the people, but to the candidate, and he is often forced by outside circumstances to adopt a course which prevents public ex-

This condition is only a natural result of a political theory which is not acceptable to the country as a whole. As long as certain secions of the Nation will have nothing to do with the primary system, and rightly, it is hopeless to expect good or actual accomplishment through its partial use. Potential candidates have nothing to gain and much to lose by adhering to it. If they provoke a fight under the primary system, the bitterness so created is certain to last through the nominating convention. Through such scattered enmities they may arouse sufficient antagonism in the convention to overcome any general favorable sentiment which their candidacies may have aroused.

These considerations might be outwelched if the primary system, even in the partial form in which it now exists, provided a fairer test. It comes far from doing that. The necessity for organization, for a machine, is far greater under the various so-called primary plans than it ever was before. The cards, in consequence, are stacked in favor of the sectional leader whose political rences are in order and against the individual of broader appeal, who suffers from the inability to do in a few weeks what

it has taken his opponent years to accomplish. From the very first, therefore, a presidential andidate must weigh minor political considerations, make compromises and effect trades that may not be of his own choosing but which are forced upon him by primary conditions.

#### TAMMANY EXPOSED.

where the Southern States Prohibition Convention is in session, is interesting, if not South in the event the Democrats nominate a wet candidate is only one of the minor predictions made by speakers before the convention. The most startling disclosure was made by F. Scott McBride, general superintendent of the Antisaloon League, in revealing the real se of the Smith campaign

"Tammany's claim that Al Smith is the strongest Democratic candidate never was falser," said Dr. McBride. "Furthermore, their hope is to put Tammany into power in New York and Chicago, not to win the presidential election. They don't care for the South or any other part of the Nation. All they want is political patronage, particularly in Cook County (Chicago), where the Republican party is now entrenched."

Here, at last, is evidence that Tammany is after all an altruistic organization. Its interest lies not in the Presidency for one of its members and all the power that such a victory would bring. Its deep concern is the fate of the Democratic organization in Chicago. The campaign is not to be in behalf of Al Smith but Bill Brennan. A Democratic postmaster for Chicago is more to be desired than a Democrat in the White House. But why go on? Dr. McBride must have realized that in order to compete on the Florida wires with baseball training camp news he would have to say something really interesting, and he

#### LEAVING THE BACK DOOR OPEN.

The Circuit Court of Appeals has reversed the decision of the Federal Court of Buffalo denying the right of citizens of Canada employed in the United States or seeking employment in the United States to pass freely to and fro across the border. The case in question was that of two citizens of Canada who were arrested in December as they entered the United States without having unexpired consular immigration visas as required by the immigration act of 1924 and rule 86, of the Department of Labor. The original court upheld the contention of the Department of Labor that entry under these conditions constituted a violation of the law.

Enforcement of the immigration laws along the Canadian border is most involved. Thousands of Canadians are employed on this side of the border, coming over to their work in the morning and returning to their homes at night. It would be a fine thing if such persons could be allowed to cross and recross the border without restriction. Yet Canada has been the rendezvous of thousands of aliens who could not enter the United States authority under which relief agencies work. | legally. Free and unrestricted intercourse A suggestion which Congress would do well across the border would mean that the back

immigration, while Ellis Island and other points of entry, the front doors, were locked and bolted.

The Department of Labor has announced that It will appeal the decision of the circuit court to the Supreme Court of the United States, and that until final adjudication is had the regulations governing Canadian border points of entry will be stringently en forced. No other course is open to it. great deal depends upon the final outcome of the case. Although the United States does not want to make it difficult for Canadians to labor in its stores, shops and factories, it must defend its borders against violation of the immigration laws.

#### SECTIONALISM IN THE SENATE.

The practice of measuring candidates for the Interstate Commerce Commission by the lake cargo case was continued yesterday when the Senate interstate commerce committee voted 10 to 7 against the confirmation of John J. Esch, of Wisconsin. The roll call shows very plainly that the Wisconsin man was rejected by the representatives of those Southern States which are engaged in a coal war with the central competitive field.

One of the accusations brought against Mr. Esch was that he and the other commissioners who voted with him to reduce the rate on between Pennsylvania coal fields and lake ports took economic conditions in Pennsylvania into consideration in reaching the decision. Even if the charge is true, there is a congressional mandate for such action. The Hoch-Smith resolution adopted only a few years ago gave the Interstate Commerce Commission specific authority to consider nomic conditions in rate adjustments. The intention of the authors was to aid agricultural communities; but the resolution imposed no such limitations. Depressed conditions in any industry may be considered under its

The ability of Mr. Esch and his knowledge of railroad matters are not questioned. He was a member of Congress for 22 years, and during that time was joint author of the Esch-Cummins act, now on the statute books. It is, therefore, apparent that he is punished for his vote in the lake cargo case. Important as the lake cargo case may be, it should not cast a shadow over every thought and action of the Interstate Commerce Commission. A commission composed entirely of men acceptable to the principles in that controversy might nceivably be a just and competent body, but the chances are against any such eventuality. The rest of the country, only indirectly interested in the dispute between the Southern and Northern coal producing States, has a right to demand that Its interests be considered, and to insist that sectional differences be not the only guide followed by the Senate.

#### THE UNEMPLOYMENT QUESTION.

The Senate has passed the Wagner resoluon calling upon the Secretary of Labor to investigate and report on unemployment throughout the country. The survey will be ade with the view of determining a method whereby unemployment statistics may be collected periodically.

There exists a demand for such informaon. The public wants to know whether or not an unusual proportion of the population is out of work. The issue has been raised. Whether political agitation is responsible for can not be known until definite statistics e at hand

Chain store business, a barometer of the expenditures of a community and hence a barometer of employment, was more than satisfactory for February. The first nine chain store organizations to report last month's sales did a total business of almost \$40,000,000 as compared with \$34,500,000 in the same month last year, a gain of more than 15 per cent. Construction started in the New York metropolitan area during the first two months of 1928 in volved valuations about 25 per cent greater than projects undertaken during the same period last year, and 23 cities reported permits ssued for construction work in January estimated at \$82,000,000 as compared with a total of \$81,000,000 in January, 1927. Permits issued in January, 1928, were some \$10,-000,000 less than those of the preceding month,

With these indications both of unemployment and of increasing activity, the Secretary of Labor will perform a valuable function by providing accurate statistics

Atlantic City officials have announced that the bathing beauty feature of the "Miss America" pageant has been abandoned. The country will applaud the decision. There was little to attract and nothing to commend the spectacle in that form. The example originally set by Atlantic City was widely imitated, and it is to be hoped that the most recent decision will be as sincerely copied. No champion has ever been able to cite any good which grew out of bathing beauty contests, and the harm that they have done needs no press agent,

Coincident with the signing of a new traffic code for Paris, the prefect of police sent a recommendation to the ministry of public works that all automobiles be forced to adopt horns emitting low, dignified and polite sounds. The idea of a polite automobile horn is most attractive to those who must dwell surrounded with the hideous noises of a city. Pedestrians would be delighted to jump from the path of a car if it would only threaten them with instant death in a courteous manner.

# The Radio Situation

By C. C. DILL

U. S. Senator from Washington

A LTHOUGH more than a year has clapsed since the radio law was signed by the President, the Radio Commission has entirely failed an unwilling man. The nearest apto solve the problems of radio. Most of all, it has refused to try to im- proach to it was in 1880, when the prove conditions by such methods as experimental allocations of wave faithful 312 stood to their banner for lengths, by trying increases and decreases of power for statious over Grant. The old comma temporary periods, and by enforcing its own regulations strictly as an seek the nomination, and in fact did earnest, active commission should have done.

Congress may be blamed for not having furnished needed funds during the first nine months, but since December, the commission has had all the money it has asked Congress to appropriate and yet it has done politicians. But, in 1928 the pe less since Congress convened, so far as improving radio reception is concerned, than during any equal length of time since its first meeting. In Coolidge, and are forcing their demand fact, it has done almost nothing, except held hearings and postpone new allocations of wave lengths. .

Mr. Lafount, commissioner for the fifth zone, who was appointed last, has really been trying to improve conditions in the far West, He has acted as speedily as he could learn enough about conditions to act intelligently. In the other zones, the commissioners have postponed action from week to week and month to month. Stations in the first and his nominations to office have been fourth zones have most of the wave lengths and power, but the equitable hung up in the Senate, and a number radio service clause is entirely disregarded.

Jordshell's all Healing Salve

"I have snown Gordahell's Ointment for thirty years, having used it per sonally and also having had many opportunities to observe its effects when used by persons under my professional treatment.
"The results of its application have always been satisfactory, not only in cases of elight abrasions of the skin but also in many very obstinate cases of chronic ulcerations. It is clean and scotting in application and continue to the skin of the skin.

#### GENERAL MOTORS LEADS STOCKS TO NEW HIGHS

Goes to 150, a Net Gain of 31/2 With Turnover for Day of 452,000 Shares.

#### 25 ISSUES REACH PEAKS

New York, March 6.—General Motors assumed the active leadership of today's stock market, after a quiet period in the early trading, and advanced to a new high price level at 150, a net gain of 31/2 points. The turno er in this stock totaled 452,500 shales, while that in the whole list amounted approximately to 2,731,000 shares. The veteran leader had a large following into new high-price territory, 25 new tops being established during the session, and most of them held to the close. Net gains of 2 to more than 6 points were estabaccompanied by considerable undercover selling, which resulted in about one-fourth of the stocks on the list closing in the minus column. United States Rubber, common and preferred, under severe pressure, lost 3 and 4

States Rubber, common and preferred, under severe pressure, lost 3 and 4 points net, respectively. The steels were quiet, moving parrowly.

Most of the day's excitement occurred in the industrial list, and the motor shares were particularly prominent. New peak prices were scored by Hupp and Packard, in heavy trading, the former closing with a net advance of a point and the latter 1½. Hudson was run up sharply in the forenoon, but lost its gains in the late trading. Chrysler gained 1½ net: Mack Truck, 1¼, and several others about a point.

Many of the rails were dull, although Canadian Pacific and the Seaboard stocks gained substantially in fairly heavy trading.

American Can was one of the principleates on the up side, gaining 2½ points net in unusually heavy trading. Other strong features were found among the tobaccos, Lorillard scaring to a new top at 43, a net gain of 3½: United States Tobacco common and B stock went up for net gains of 6½ and 6 points, respectively: Liggett & Myers B, with a net gain of 4 points; Bayuk Cigar, 4, and there were gains of nearly a point in some other tobaccos.

Advances of 2 to 6 points net were scored by American Radiator, White Sewing Machine, Warren Brothers, Victor Talking Machine, Cast Iron Pipe, Shubert Corporation, Liquid Carbonic, Otis Elevator, Paclife Coost, Radio, Purity Baking B, International Nickel, International Nickel, International Nickel, International Nickel, International Nickel, International Mercantile Marine preferred, Greene Copper, International Nickel, International Mercantile Marine preferred greene Copper international Harvester. Hudson & Manhattan and others.

The spirited rise in values was accompanied by scarcely any outside developments, technical conditions of the market being the principal guiding force, but it was apparent from the opening gong and their position never was in doubt, although General Motors was a triffe slow about starting on its further upward course. Speculators still appeared to be taking their cue from the money market rat

appeared to be taking their use from the course of trade and industry. An easy tone prevailed in the demand money market, with new loans being arranged readily at the official figure of the course of trade and with a slightly mover parket, and with a slightly mover proor reading.  The brisk run-up in Packard was based to an extent on reports that the company probably had covered its full year's dividend requirements at the rate of \$3 as share in the first strumoths of the fiscal period ended February 29.  Reports were current in the street that insiders buying General Motors were responsible for the remarkable advance in that stock yesterday and to-day. Perhaps they were, but insiders in General Motors usually do their buying before the stock becomes a first-page attraction. Incidentally, the corporation is obtaining its usual quota of free advertising and the stock market's reflection of increased sales of cars will do no harm in promoting further sales.  Spanish pesetas, falling 10 points in restricted dealings, provided the main feature of small volume foreign exchange dealings. Sterling held firm.  Small gains were made in French and tallan rates and German marks gained a point. Scandinavians did alightly better, as did Japanese yen, while south Americans were generally unchanged and Canadian held firm.  BALTIMORE SECURITIES.  Baltimore. O. of America com B. 11. Reports were current in the street that insiders buying General Motors were responsible for the remarkable advance in that stock yesterday and today. Perhaps they were, but insiders in General Motors usually do their buying before the stock becomes a first-page attraction. Incidentally, the corporation is obtaining its usual quota of free advertising and the stock market's reflection of increased sales of cars will do no harm in promoting further sales.  Spanish pesetas, falling 10 points in restricted dealings, provided the main feature of small volume foreign exchange dealings. Sterling held firm. Small gains were made in French and Italian rates and German marks gained a point. Scandinavians did slightly better, as did Japanese yen, while South Americans were generally unchanged and Canadian held firm.  BALTIMORE SECURITIES. market will show much change until the Treasury's March 15 financing is outlined later in the week. With time money showing little change, bond owners were disposed to hold on to their securities, while buying naturally has been slowed up somewhat by current high prices.

Heavy buying of the new St. Paul issues resulted in new high prices, and strength spread to several of the old mortgages, 4½ certificates reaching a new peak for the year. The rally in Seaboard mortgages, continued, the two all-Florida issues leading the recovery with advances of 4% points each.

The standard railway issues changed hands slowly and in nominal amounts. With little change in price. Erie 5s and Rock Island 4½ swere among the most noticeable issues in this group.

Strength of stocks led to buying or several of the convertible liens. Liquid Carbonic 6s stood out with a 7½ point indump, while Guba Cane Sugar 7s and Botany Mills 6½s were a point or so above yesterday's close.

The foreign group was virtually steady, with no outstanding features. Some of the French and Italian obligations again inclined to heaviness, but Bulgarian 7s advanced fractionally to a new high, probably influenced by the approach of the new \$25,000,000 loan to that kingdom.

Very little activity was noted in the government department, and prices showed little change.

#### CITY'S BANK DEPOSITS SHOW BIG INCREASES Sale

Riggs National Leads Extraordinary Jump Since December 31. 1927.

#### LOCAL MARKET IS FIRMER

By F. W. PATTERSON

That extensive increases in deposits in Washington banks have been acomplished since December 31, 1927. was borne out yesterday when the Comptroller of the Currency issued a call for statement of condition of the banks of the country as of February 28, and a hurried survey of the local situation developed that most of the financial institutions will report substantial

Among the institutions showing the largest deposit gains since the close of 1927 were the Riggs National Bank. which increased \$2,261,117, to \$42,786,-669, on February 28; National Metropolitan with a gain of \$1,362,869, to \$18,552,226; District National stepping up \$1,153,195, to \$10,024,576, and the American Security & Trust Co. with a

gain of \$1,077,891, to \$30,466,199.
Some of the deposit figures of local banks on February 28, with comparative figures for December 31, 1927, the preceding date of call of the Comptroller of the Currency, follow:

#### Local Market Firmer.

The market in local stocks yesterday was marked by generally firm or frac-tionally better prices. Peoples Drug Stores preferred, though lightly traded in, was conspicuous, moving into new high ground with a 1½ point advance

to 131½.

Washington Gas Light continued fairly active and, starting at 88½, advanced to 88½ on a sale c 11 shares, but eased off to 88¼, and the final transaction found the selling price at 88. Washington Railway & Electric preferred was easier at opening but ad-

68. Washington Railway & Electric preferred was easier at opening but advanced to 103% on small sales. Potomac Electric Power 5½ per cent preferred sold unchanged at 107%.

Among the bank stocks Second National sold in two lots at 265; Commercial National was firm at 264, while 10 shares of Riggs National sold at 509. Federal-American Co. common led the miscellaneous list with a full point gain to 39½. Columbia Sand & Gravel preferred was fractionally up with a small sale at 105½, while Lanston Monotype sold through the session at 109½.

109½.
Trading on the bond side of the market was extremely light with sales recorded only in Washington Gas Light &s, series A. at 105¾, and Barber & Ross. Inc., 6½s at 97½.

#### Narrow Bond Issue.

An issue of \$30,000,000 Kingdom of Korway 35-year.5 per cent sinking-fund external gold bonds, dated March 15. 1928, and due March 15, 1963, is being offered today by a banking syndicate headed by the Guaranty Co. of New York, Dillon, Read & Co., and the First National Co. of Boston. The offering price is 97½, with a yield of about 5.13 per cent.

#### Freight Loading Decreases.

Freight Loading Decreases.

Loading of revenue freight for the week ended February 25 totaled 869,590 cars, a decrease of 18,301 cars below the preceding week due to the observance of Washington's Birthday, as well as a decline of 49,268 cars below the corresponding week in 1927.

\*All districts, except the Northwestern and central Western reported decreases in the total loading of all commodities as compared with the corresponding week last year.

#### Litilities Company Income.

Total income of Middle West Utilities Company for the year ended December 31, 1927, was \$14,509,763 compared with \$12,537,849 in 1926, an increase of \$1,971,914, or 15.7 per cent, the annual report made public yesterday shows.

Surplus earnings after payment of prior lien dividends, interest and administration expenses were \$6,988,401 or the \$equivalent of \$15.12 per share on the \$462,079 shares of common stock outstanding December 31, 1927. This compares with \$6,295,526 or \$14.44 per share earned on \$435,736 shares of common stock outstanding in the previous year.

#### Weekly Forum Luncheon.

The weekly forum luncheon of the District Bankers Association will be held today at 12:45 p. m., at the Willard Hotel.

#### Returns From Florida.

Ezra Gould, president of the Wash-ington-Mechanics Savings Bank, who has been sojourning at Palm Beach. Fla. for the past month returned to Washington yesterday.

#### Regional Conference Plans.

Many District bankers are planning to attend the regional savings conference to be held at Richmond, Va., on April 5 and 6, with headquarters at the Jefferson Hotel. It will be recalled that the regional conference was held in Washington last year, and the benefits derived from the discussion of vital topics on banking at that time assures a large attendance at the Richmond meeting.

meeting.
The regional conference takes in the District of Columbia, Alabama, Delaware, Florida, Georgia, Kentucky, Maryland, Mississippi, North and South Carolina, Tennessee, Virginia and West Virginia, among the member banks of the American Bankers Association.

and four companies in Queens were merged on January 1, 1928. The dollar gas law for New York City, passed by the Legislature June 2, 1923. was declared confiscatory and void by decree of the Federal Supreme Court on November 29, 1926. The decision annulied both the dollar rate and a prescribed heating standard of 650 British thermal units fixed by the law, neither of which were ever effective, the operation of the statute having been enjoined by court action. Pending the final decision however, the order of the court required a "supreme account" which stood at \$7.931,000 at the end of 1925, and had increased largely up to the time of the S when timpounded, however, and was used largely for property betterments, including revenue in excess of the statutory rate of \$1 per thousand cubic feet, the company, with a basic rate of \$1.15 per thousand earned net available for dividends. \$3,996,011 in 1926. Net income for 1927 is reported as \$3,912,000.

New York, March 6 (A.P.).—Operations in the steel industry have declined 1½ per cent the last week, the average being put at around 82 per cent against 83½ per cent the week before and 84 per cent two weeks ago. Ingot production of the U.S. Steel Corporation is now below 89 per cent, compared with 90 per cent the two preceding weeks. Independent companies are averaging 76 per cent against 77 per cent the previous week.

National Tea Co earned \$12.17 a share

National Tea Co earned \$12.17 a share on the common stock in 1927, after preferred dividends, against \$9.16 a share in 1926 Net profit rese to \$2,-046,041 from \$1.585.221

The stockholders' protective commit-tee of Middle States Oil Corporation re-ports that "safe and substantial prog-ress has been made in bringing order into the affairs of the corporation and its subsidiary and affiliated companies and that within a short time measure toward a reorganization will take place. The tax situation, it was stated, in longer was an obstacle to reorganiza-tion, as it is anticipated claims for in-come taxes will be settled for a smal-sum. Most of the important litigation also has been disposed of.

Atlantic Guif & West Indies Steam-ship Lines had net income of \$769,797 for 1927, against \$429,191 in 1926. This was equal, after preferred dividends, to 41 cents a share, against \$3.12 a share on the preferred only the year before.

Increased development of New Brunswick mining properties is predicted in the report to the provincial legislature of the Department of Lands and Mines Production of coal, gypsum, gas and cil in 1927 was greater than in the previous year, and development of antimony deposits at Lake George gives promise of great importance to the artimony industry, the report stated.

### TO INVESTORS WHOSE BONDS ARE BEING CALLED

AS a result of the steady decline of bond yields, the first two months of 1928 have seen a recordbreaking volume of bonds called for redemption and replaced by issues bearing lower coupon rates.

The investor who is thus confronted by the problem of diminishing returns, will find that, by transferring the proceeds of his called railroad, public utility or industrial bonds to good real estate first mortgage issues, he may maintain his income at a profitable level while at the same time obtaining an equal or greater degree of safety and stability.

In Guaranty Bonds, for example, he may obtain a 6% yield, with the security of first mortgages on completed property in or near Washington, and with the added pronear Washington, and with the added pro-tection of a direct and unequivocal guar-antee of principal and interest, backed by the Real Estate Mortgage & Guaranty Corporation's own capital, surplus and reserves of more than \$3,400,000.

Call or write for descriptions of current offerings, available in \$1,000, \$500, \$250 and \$100 denominations, and in maturities from 1 to 10 years.

Thirty-Five Year 5% Sinking Fund External Loan Gold Bonds

To mature March 15, 1963

Cumulative sinking fund, commencing in 1933, calculated to be sufficient to retire the entire issue by maturity by call of Bonds by lot, but Government may deliver Bonds at par in lieu of cash

Guaranty Trust Company of New York, Fiscal Agent for the Loan

The following is taken from a statement farnished us by the Royal Finance Department and the Royal Statistical Department of the Kingdom of Norway, copies of which will be supplied upon request:

These Bonds are to be the direct obligation of the Kingdom of Norway, which pledges its full faith and credit for the payment of principal, interest and sinking fund. The loan contract will provide that if the Government shall sell, offer for public subscription or in any manner dispose of any bonds or loan secured by lien on any revenue or asset of the Kingdom, the Bonds of this loan shall be secured equally and ratably with such bonds or loan. There are at present no loans outstanding which are so secured.

The proceds of this issue are to be used in consolidating short term indebtedness of the Government.

The total national debt, after giving effect to this financing, will amound to \$456,751,676 compared with \$464,069,000 as of June 30, 1925. As against this, the Government owns properties valued in excess of \$360,000,000, most of which are revenue-producing, such as railroads. telegraph and telephone lines, forests, mines and hydro-electric plants.

No default of principal or interest has ever taken place on a Norwegian National Government loan. The high credit of the Government is indicated by the fact that from 1886 to the outbreak of the World War the net cost to the Government of its various loans ranged from 3.10% to 4.11%.

#### Application will be made to list these Bonds on the New York Stock Exchange

Open Sunday and Evenings
This is the first unusual sale that this company has held. We are compelled to hold this sale for the following reason: The new car sales of Oakland and Pontiac have far exceeded the fondest expectations of the management of this growing concern, and, in order to make room for our spring business, we must sell our used cars at any cost.

Every car in stock has been reduced from \$25 to \$150 in price in order to move them.

# Ruth Hits 2 Homers, Chases Photographer

St. Petersburg, Fla., March 6 (A. of the 1928 training season was a wild and wooly affair today, the big outfielder engaging in a round of half-angry banter with a photographer who told him to "hold that pose!" as he followed through with powerful swing after hitting

Babe glanced around when the ameraman shouted and replied, frowning heavily:

Hasty obedience on the part of the photographer brought a roar of laughter from other camera wielders and surrounding fans. Ruth smiled then, agreeing to pose for all photographers with the exception of the "offender."

The clamor worried the Bambino to such an extent that he hurried to his hotel as soon as the workout was completed, but not before he had driven the ball out of the park twice in batting practice. He in dulged in a short fielding practice session along with batting a few.

# GAD WINS AT NEW ORLEANS AS FANS HISS JUDGES

# Take a Chance Beaten Out By Nose

Police Disperse Jeering Crowd Following Blanket Finish.

Color Sergeant Wins, Eased Up, From Shasta Lad.

JEFFERSON PARK, New Orleans, March 6 (A.P.).—The blanket finish of the third race here today almost caused a riot. A crowd of four or five hundred racing fams gathered around the judges' stand, booing, hissing and hurling insulting remarks at the officials. Several men were led to the gate, but still the crowd kep up its booing.

It all came about when Gad, Take a Chance and George Groom came to the wire driving hard and to all it appeared as if Take a Chance had won, but the placing judges gave the race to Gad with Take a Chance second and Grorge Groom hird. Immediately after the hanging out of the numbers the crowd gathered and became menacing, and it required the best efforts of the local police to hold them in check. It took about fifteen minutes to restore peace, and then the crowd dispersed.

The race in question brought about a form reversal of Take a Chance, who ran yesterday and was beaten by several lengths. Take a Chance rushed into the lead, made all the pace, but right at the end Gad got her nose in front and won.

W. J. Salmon's Black Friar, with W. J. Salmon's Black Friar, with Leonard up, scored easily in winning the fourth race, a mile and 70 yard gallop. Rejuvenation was second and Sliver Song third, Sliver Song made the pace for 5 furiongs, then Leonard rushed Black Friar Into the lead. He increased his advantage to win by two lengths, Rejuvenation gathered the place by a head from Sliver Song.

Sir Leonid won the last event by a head from Torcher with Mme. Presse third, a head back.

filumine, a first-time starter, scored in a romp in the first race which was a half-mile dash for 2-year-olds. Thunder Call finished second and Pickerel third. Sentry Lass, favorite, finished fourth.

filumine pumped away to a long lead and made every post a winning one and landed the purse by a length and a half. Thunder Call took the place by two lengths from Pickerel.

The Idle Hour Farm stable's Berosus, odds-on favorite in the betting, carried the colors of E. R. Bradley to victory in the second event, which was a 6-furlong sprint for maiden 3-year-olds. Berosus was the first favorite to score. His margin of victory was very small, and for a few seconds it appeared as if he would be defeated. However, in the final hundred yards Junie tired and Berosus drew away to win by a head Junie took the place by two lengths.

# OLLYER'S COMMENT TOT DAWG. Smart boys down New Orleans way are looking for shipping money, while the wise paddockites are seeking railroad fare, following their failure to land on many winners. This being the case, it is up to your Uncle Bertram to impart some wise information which will help the lads to get out of the hotel stakes. GREAT TIMBER, a sure Louisiana Derby contender, has been dropped in the proper spot in the fifth spasm down at Jeff. Park, and if horse players do not pick up some easy change they can't blame me. They may wager on BRUNO to beat the Salmon-Wilson race, but it just isn't in the cards for the Idle Hour 3-year-old to turn the trick. SOUTHERN KISS can do much better than that last effort would indicate. Old Boy Rice may have been spoofing with the taleut, so hustle around and get a ticket right on the old beezer on this miss in Learly is tuned with great regime.

Rejuvenation gathered the place by a head from Silver Song.

I harry Payne Whitney's colors were carried to victory in the fifth race, a 5½-furlong sprint, by Color Sergeant. He paid \$5.40 for a \$2 ticket. The pace was very fast, the first half mile being turned in in 0.46 4.5, the 5 furlongs in 0.59 2-5, and the full route in 1.06 1-5. Color Sergeant was eased up at the end winning by three lengths. Shasta Lad was second, three lengths ahead of Big Sweep.

In another head finish Bun gained the purse in the sixth race, defeating the good thing. Force, with Cuddle third. Out Step made the early pace, but in the stretch Force ran into the lead and right at the end Bun came along to win by a nose. Force defeated Cuddle by a length and a half for the place.

Sir Leonid won the last event by a sixth sixth race with the last event by a length and a half for the place.

Yankees' Pilot Says "You Never Can Tell in Baseball."

This is the first in a series of interviews with major league baseball managers on the pros-pects of their clubs in the approaching race.

By BRIAN BELL (Associated Press Sports Writer.)

1. PETERSBURG, Fla., March 6
1. A.P.).—Miller Huggins, manager of the world champion New York Yankees, seems more optimistic than usual this spring.

With a club good enough to win the world series in four straight games, practically intact, baseball observers see no reason why he should not be cheerful but in other years the mite manager has been prone to view with alarm.

mately 20 contests have been held in local schools and organizations as a part of the tournament prometed by The Washington Post and the committee in charge of the work and the committee in charge of the work will complete the work of selecting the first, second and third place winners in each of the classes today.

These winners will be given another opportunity to better their records in the finals Priday, but in the event that their scores in the Tinals are lower than the preliminary trials the best score will be counted as the official one.

Pew changes occurred in the standing of the teams and individuals yesterday but it is possible that some contestant will be found in the records to be examined today who will edge out leaders who have been holding their places for the past few days.

The Engles, Gypsies and American University lead in the senior team score; American University and Western High School, hacfarland Junior High School and Holton Arms School hold junior class places.

Alys Ewers, of the Engles, Josephine

School, MacFarland Junior High School and Hotton Arms School hold junior class places.

Alys Ewers, of the Eagles, Josephine Dunian, of the Basketeers and Rowan-etta Allen, of American University, and Frances Calatzo, of the Cypelies, are shead in the senior individual class.

In the intermediate individual scores, Jean MacGregor, of George Washington University; Sally Abell, of Western High School: Lucy Munson, of Washington-Lee High School, and Grace O'Loue, of the Columbia A. C., hold the top.

Mary Tolman, Western High School: Mildred Hook, Martha Bennenson, of George Washington University, and Catherine Doomis, of MacFarland Junior High School are leading.

In the Playground Class, contestants for top honors are Virginia Jones, of Montrose: Ruth Brown, of Rosedale, and Shirley Furr, of Georgetown.

Records examined yesterday are:

#### **OUTFIELDERS HITTING** BALL HARD AT TAMPA

CONTINUED FROM PAGE 18. boy. This gives Ganrel a pair, as he has another young outfielder about 4 years old.

Peter Cooper is showing himself to be a mighty sweet little catcher. He not only is showing signs of being a good fielder and thrower, but he is hitting the ball hard in practice.

Umpire Roy Van Grafian, of the American League staff, arrived here in time for dinner tonight. He will handle the Nata' exhibition games.

#### DRAWINGS MADE FOR S. A. TOURNEY

CONTINUED FROM PAGE 13. tor Whirlwinds. Those teams in the lower bracket will include Gonzaga Preps. vs. Aracadians, St. John's Victors vs. Cleveland Park Flashes, Boys' Club Elks vs. Agtecs.

Players in the 145 and 130 pound classes will be weighed in at the Boys Club tonight between 6 and 8 o'clock. Boys who failed to make the weight for the 115 and 100 pound class last night will also be judged between these hours.

That managers of the 100 and 115 pound class teams made a good job of their selections of players this year was evidenced by the fact that only five failed to make the required weight. One boy failed by two pounds while another was one-half pound over the

Players, whose names appear on the eligibility lists of two teams, regard-less of their classes, must play only with the first team with which they

compete.

Eight tickets for players and one for the manager will be mailed to the manager of each team the day before the team is scheduled to compete.

KENSINGTON WINS TWO.
The Kensington Hoboes won two
games last night, defeating the Kennedys, 20 to 18, and the Athletics,
28-22. Devoe, Timper and Beall were
the Hobo stars.

of a man who developed an incurable Bright's disease, but who kept to work in spite of it for 30 years, eventually serving as prime minister of his country.

A certain physician, Dr. L. P. Mark, developed acromegaly 48 years ago. Although beyond the biblical limitation of age, he continues at work. Acromegaly is a disease of the pituitary body, a structure located within the head and almost a part of the brain. There is often a tumor-like growth of the pituitary in acromegaly. As a consequence of this growth the bones of the body overgrow. Those of the hands and feet grow all out of proportion. The bones of the face, particularly of the lower jaw and cheeks, become far too large.

Declarer, planning his campaign, would see that he must lose the first Heart trick and that West will surely lead a second Heart. Should he refuse to trump this, there doubtless would be a third. If he did not trump he would discard Diamonds on the second and third Heart tricks and then East and West could lead a fourth Heart or shift to Diamonds; he could not pass a fourth trick and make game, so he might as well ruff at his first opportunity.

Declarer can see that his only chance for game is to make five Spades and five Clubs. With the adverse trumps drawn, there would be no doubt about the five Clubs; but to capture the King of Spades and make five Spade tricks.

DEAR Miss Singleton: I am asked to a wedding. It is to take place at a girl's home at 5:30. Fifty guests. Will you kindly let me know what would be the proper thing to wear? If it should be an afternoon or evening gown? Should I wear gloves? Please let me know at once.

I am so sorry that I was unable to answer this before. The information desired is of general interest, however, and even if late for one wedding will be in time for many, if brides are as plentiful as usual in the spring season. Always wear afternoon clothes to an afternoon function and you will be correctly dressed, even if others should appear in evening gowns. Afternoon dress is a little more elaborate than morning dress; and for a wedding you might be rather smarter than usual in that, shoes, stockings, gloves and ornaments, even if you wore a quiet col-

Opposition to the proposed car line merger, unless twelve provisions in the present plan are changed, was voiced in a resolution adopted last night by the Columbia Heights Citizens Association at a meeting in the Wilson Normal School. The principal objection to the present plan, the resolution declared, is that the valuation is too high.

A resolution advocating the appointment of a committee from members of the association to cooperate with a similar committee of the Columbia Heights. Real Estate Owners Association to prevent the sale of houses in the community to colored persons was unanimously adopted after more than two hours' debate. Alton B. Carty, president of the association, presided.

Accounting and Correlated Divisions Selected to Be Sent to Georgia City.

Retention of the executive headquarters of the Southern Railway in Wash-ington, and transfer of certain departments to Atlanta, sending nearly 1,200 officers and employes of the railway system to the Georgia city was an-mounced yesterday by President Fairfax Harrison at Atlanta.

fax Harrison at Atlanta.

The executive headquarters will be housed in a new building to be constructed here at the southwest corner of Fifteenth and K streets northwest, overlooking McPherson Square. The site was obtained for the railroad by Harry Wardman, and includes the property on Fifteenth street north from the University Club to the new office building on K street being erected by Julius I. Peyser, on the corner of the alley. The total amount involved in the transaction was placed at \$1,600,000 by Mr. Wardman. The site contains about 30,000 square feet, he said. With a total staff of officers and em-loyes here of about 2,200 at present, nly a thousand of them will be re-tined in Washington, according to the monuncement. The offices of the uditors of freight, passenger and sta-on accounts, the car accountant and the overcharge claim agent will be cansferred from Washington to At-

Change Will Save Time.

According to the announcement the offices effected are those which assemble data for railroad accounting, and in that class of work, President Harrison stated, efficiency being measured by time, the standard is, as in manufacturing, to conduct operations where the raw materials can be assembled promptly, and at a minimum expenditure.

All things being equal, he said, it follows that the best site for such work for the railroad is at that one of its terminals which is most conveniently reached from all points on its lines, from Memphis, St. Louis and New Orleans and from Alabama, Georgia and the eastern part of Tennessee.

and the eastern part of Tennessee.

Decision to establish these offices in Atlanta, it was said, was reached after a careful study. In the new location, it was estimated, 24 to 48 hours can be saved in production of the units of as compared with concen-

SINGS ON AIR TONIGHT Mr. Work and Mr. Whitehead made Clubs Major Herman played the 2: played the 10; Mr. Whitehead played the 6. dame, broadcast last night from Station WRC, with two of Boston's famous players-Mrs. Prescott Warren, noted for her Radio Bridge lectures, and Maj.

Correct Play Involved.

Dummy led the Jack of Hearts; Mr. Whitehead played the Queen; Declarer trumped with the 4 of Spades; Major Herman played the 5 of Hearts.

Mrs. Warren then led her thirteenth Diamond, the 8 spot; Maj, Herman discarded the 7 of Clubs; Dummy the 3 of Clubs, and Mr. Whitehead the 2 of Hearts. Mrs. Warren next led the 5 of Clubs; Major Herman played the Ace; Dummy the Jack; Mr. Whitehead the 9.

Maj, Herman led the King of Spades; Dummy played the 5; Mr. Whitehead discarded the 4 of Hearts; and Declarer followed suit with the 7 of Spades.

Maj, Herman, for the last trick, led the Queen of Clubs; Dummy won with the King of Hearts; and Declarer played the 8 of Clubs. Mrs. Warren, as Declarer, took ten tricks altogether, scoring game, 36 points. The adversaries scored 30 honor points for simple honors.

The correct play of this hand was so involved that the majority of players unquestionably would have muffed it. Mrs. Warren not only had to conduct the play so as to drive out two adverse Aces, but she also had to provide entries in her own hand to take three finesses, and all of this in a manner that would involve the least risk.

gations to show his partner any strong suit he might hold.

Opening the second round of bidding, Mrs. Warren showed the high caliber of her game by bidding two Spades on her five Spades to the 2 spot. Her partner's double presumably was made with the hope of a response in a Major suit, manifestly a Spade. Mr. Whitehead's intervening bid relieved Mrs. Warren of the obligation to bid; but Mrs. Warren for the obligation to bid; but Mrs. Warren fightly considered that with the King-Queen of Diamonds and five Spades she had the strength to bid woluntarily. Mr. Work, her partner, could not have expected her to hold much strength after her initial pass and Major Herman's N. Trump bid, and yet Mr. Work had requested her to bid. She therefore had no hesitation in maming the Spades suit.

Herman Goes to Three Hearts.

Herman Goes to Three Hearts. Maj. Herman bid three Hearts. He Maj. Herman bid three Hearts. He realized that the strength lying over him in Mr. Work's hand materially decreased his own trick-taking possibilities. Yet with three Hearts and strong support for the bid were it not for his unfavorable position, Maj Herman felt called upon to give one assist to his partner's free Heart bid, as he knew that Mr. Whitehead would not have called a weak suit over an intervening double.

Mr. Work bid three Spades. All passed, and Mrs. Warren became Declarer with her contract three Spades.

called a weak suit over an intervening double.

Mr. Work bid three Spades. All passed, and Mrs. Warren became Declarer with her contract three Spades.

Maj. Herman opened the play by leading the 8 of Hearts, his highest of three small cards of his partner's suit. Dummy went down, and Mrs. Warren played from it the Ace of Hearts; Mr. Whitehead played the encouraging 9; and Mrs. Warren noted the desirability of leading both trumps and Clubs from her own hand through Maj. Herman's strong holding. The question of entries in her own hand therefore became of paramount importance. She had two entries in the Diamond suit and two more could be secured by Heart ruffs. Four seemed sufficient for her purpose. Accordingly she proceeded to establish her Diamond entries by an unblocking lead of the Jack of Diamonds from Dummy. Mr. Whitehead played the 3; Declarer herself covered the Jack with the Queen to gain an immediate entry if the Ace did not fall; Maj. Herman won with the Ace.

REAL HELP IN SIGHT

The Washington Post's campaign for the wider study of music, through the publication of the lessons of the Melody Way course now appearing each Sunday, has brought forth fruit from unexpected quarters, cooperation from those who, while benefiting indirectly by this undertaking, would scarcely have been expected to join this newspaper as they have.

Teachers of music have been outspoken in their praise of The Post for its generous use of valuable space, seeing in it a broad plan for encourage esponding benefits to the young folks
